

welcome home baskets

To benefit homeless families and individuals in Northern Virginia

HomeAid Northern Virginia builds and renovates housing and shelters for the homeless.

While our finished projects provide safety and stability for people who were once homeless, they are missing many of the basic items that you and I take for granted - towels, sheets, pots, pans, dishes, and everything else needed for a happy home.

- 1 Sign-up your workplace, neighborhood association, or any other group to put together one or more Welcome Home Baskets for the families and individuals moving out of homelessness and into a new home or shelter residence.
- 2 Hold your drive for a month, collecting these basic items in a large basket or box.
- 3 Drop them off or call us to pick them up! In some cases, we can provide your group the opportunity to tour the home or facility when the project is complete, and deliver the Welcome Home Baskets in person.
